TO WHOM IT MAY CONCERN

This is to certify that Ortiz Group Corp. is client of the PR Minority Business Development Agency Center since 2008. The center provides services in identifying business opportunities with municipalities, local government and federal agencies. In addition, we identify opportunities in the private sector.

Also, we identify on an on-going basis the different matchmaking events not only with federal agencies, but also with the private sector in Puerto Rico in order that they participate and promote their services. As a result of these efforts, they were able to participate (by themselves or represented by MBDA Consultants) in matchmaking events performed by the Small Business Administration at the CIA, MBDA-MEDWEEK, Asociacion Productos de Puerto Rico – Annual Convention, Centro Unido de Detallistas – Annual Convention.

We will continue assisting Ortiz Group Corp. in expanding their market and its President has a meeting with Promo Export to identify opportunities in other countries such as Panama, Costa Rica and others. Also, our center is coordinating efforts with the San Antonio and Atlanta MBDA Centers to identify opportunities in US.

Sincerely,

Teresa Berrios  
Executive Director
